

CONTENTS

1. INTRODUCTION	7
2. OPERATIONS AND MAINTENANCE PROGRAMMES	9
2.1. Characteristics of Common Maintenance Programmes.....	9
2.2. Guidelines for O&M Implementation.....	15
2.3. Overview of Technical Methods for Assessment of Machines and Equipment.....	19
3. THE SYSTEM APPROACH FOR MECHATRONIC STRUCTURES	27
3.1. Preliminary Assumptions and Definitions	27
3.2. The Prediction Oriented Diagnostic Vectors	35
3.3. Decomposition of Mechatronic Systems	37
4. THE STRUCTURAL NOTATION OF AUTOMATED MACHINES BASED ON MATRICES AND DIGRAPHS METHODS	42
4.1. The Multi-Level Decomposition.....	42
4.2. Matrix Description of the System	44
4.3. The Structural Notation of Mechatronic Systems Using Block Diagrams and Digraphs	49
4.4. Reduction of the Structural Notation to the Block Form.....	53
5. RCA ANALYSIS OF ELECTRIC MACHINES WITH PARTICULAR EMPHASIS OF THE SQUIRREL-CAGE INDUCTION MOTORS.....	58
5.1. Structural Decomposition of Electric Propulsion Systems	58
5.2. RCA Analysis of Extracted Assemblies of Electrical Machines	61
5.2.1. Decomposition of the Considered System	61
5.2.2. RCA Analysis of Stator Windings.....	65
5.2.3. RCA Analysis of Rotor Windings and the Core.....	82
5.3. RCA Analysis of Mechanical Assemblies, Components and Piece Parts	93
6. GRAPH AND ALGORITHM DEDICATED TO DIAGNOSIS AND PROGNOSIS OF STATES OF SQUIRREL CAGE INDUCTION MOTORS	111
6.1. Graph of Causes and Effects of Failures.....	111
6.2. Modification of Dijkstra's Algorithm Oriented to Implementation in Programmable Logic Controllers.....	121

7. SUMMARY..... 127

BIBLIOGRAPHY..... 130

Abstract..... 141

CONTENTS

1. INTRODUCTION..... 1

2. OPERATIONS AND MAINTENANCE PROGRAMS..... 9

3. Comparison of Program Maintenance Programs..... 9

4. Guidelines for O&M Implementation..... 13

5. The Role of Technical Manuals for Assessment of Machines and Equipment..... 19

6. THE SYSTEM APPROACH FOR MECHATRONIC SYSTEMS..... 25

7. The Role of Maintenance and Diagnostic Systems..... 25

8. The Role of Maintenance and Diagnostic Systems..... 27

9. The Role of Maintenance and Diagnostic Systems..... 27

10. THE STRUCTURAL NOTATION OF AUTOMATED MACHINES BASED ON MATHEMATICAL AND LOGICAL METHODS..... 43

11. The Method Description..... 43

12. The Method Description of the System..... 43

13. The Method Description of the System..... 43

14. The Method Description of the System..... 43
